

Dear Me... **Graphic organizer**

Every writing project should be organized in a way that makes it easier to understand for your targeted audience. That means if you are writing for children, your work should be so clear that a child can understand it! Who do you think the audience for this piece is? If you answered someone your age, you are correct! As this letter is for you, make sure to use sentence structure and vocabulary that you know how to use appropriately.

This graphic organizer will help you organize your letter when you write it in the next step.

Introduction

Start off the letter by saying how you feel about the school year starting.

Paragraph 1: This summer

For most of us, this was a summer like no other! Write four or five sentences about what you did this summer.

Paragraph 2: I'm excited about...

Name four things you are excited about in grade 7. Make sure to add why!

Paragraph 3: I'm worried about...

Change is never easy! Name three things that have you feeling a bit uncertain about grade 7.

Conclusion

Write down two things you hope to accomplish this year and how you think you'll do it.
